WOMEN EMPOWERMENT CELL

Women's Empowerment Cell aims to empower women in social, economic, political and legal fields, with a focus on decision-making. She runs events and hosts guest lectures to accelerate educational advancement, cultural development, and leadership in the lives of young women.

OBJECTIVES:

To ensure that science and technology and women use their potential to develop the country by encouraging their commercial, social, cultural and political activities.

To Encourage greater participation and developing girls' leadership and values.

To support women.

To make conscious choices in areas such as education, employment and health, especially child health.

To prepare gender awareness programs.

To organize meetings to raise awareness about women's business, social, political and legal rights.

To held meetings and workshops to spread awareness and educate women about opportunities and tools.

To Organize various events for women to understand their own health, sports, defense and other knowledge, organizing various competitions to improve their skill skills. It emphasizes the importance of spirituality, health, hygiene and safety.
